## Modern, biologically friendly orthodontics powered by digital planning & AI

A comprehensive, practice-oriented course for orthodontists who want to learn or deepen their understanding of modern, biologically oriented, digitally supported Damon treatment concepts.

### DAY 1 – The Foundation: Damon System & Philosophy

A paradigm shift in orthodontics - day 1 lays the solid foundation for contemporary, holistic orthodontics.

Discover what makes the Damon System so unique—and why it differs significantly from conventional bracket systems.

- ▶ Introduction to the Damon Philosophy
- ▶ Passive self-ligation: efficient, light forces
- ▶ Biomechanics & the science behind biologically compatible tooth movement
- ▶ Arch development in harmony with the face
- ▶ “Treating to the face, not to the space” – the core of the Damon treatment concept
- ▶ Building a modern, biologically friendly treatment approach

### DAY 2 – Deep Dive: Damon Ultima, AI & Digital Workflows

Day 2 focuses on the next evolutionary step: Damon Ultima. More precision. More control. More predictability.

- ▶ Damon Ultima architecture: 3D control, new slot/wire geometry
- ▶ Efficient treatment protocols with Damon Ultima
- ▶ Case planning with AI: faster, more precise, more predictable
- ▶ Interactive case discussions with digital simulations
- ▶ Digital planning of Damon Ultima cases
- ▶ Demonstration of the Damon Ultima ODB System (OrthoDirect Bonding)

A day full of hands-on practice, modern technology, and immediately applicable clinical strategies.

### Who is this course for?

- ▶ Orthodontists who want to introduce Damon
- ▶ Practitioners looking to structure or deepen their Damon knowledge
- ▶ Practices aiming to work more digitally, efficiently, and biologically
- ▶ Anyone who wants to understand how to optimally combine facial analysis, biology, and digital technology

### Why participate?

- ▶ Gain a holistic understanding of the Damon philosophy
- ▶ Improve diagnostics & treatment planning according to biological principles Learn reliable Damon Ultima protocols
- ▶ Use AI for precise, efficient planning
- ▶ Implement a digital Damon Ultima workflow system Increase quality, efficiency, and patient satisfaction
