2017

an exciting Year for Ormco and You!

Dear Doctors and Business Partners,

Let me invite you for an extraordinary Journey in the coming months with a couple of new products and innovations.

Additionally, Ormco is preparing exemplary educational events with the Ormco Symposium

- in Monaco, Sept. 7-9,

- in Bangalore-India, Sept. 16-19,

- in Cape Town-South Africa, Feb. 2-4 2018.

Let's go together to this Journey - with new, better and innovative products combined with effective high level educational events so that our patients will get the best smile ever.

Yours Faithfully,

Steffen Saupe
Senior Director EMEA

Notes on torque selection by Dr. Mavreas

"This brief report intends to shed some light on certain aspects of the torque selection process which is closely connected to the current practicing of the Damon system. In addition, it may be useful to other practitioners irrespective of the bracket system employed."

Your Insignia™ team is excited to announce the new features included in our latest upgrade!

- Truroot™ data integration & improved library roots
- New approver features
- Submitting CBCT data via dicom files – Instructions
- Submitting intraoral scanner data – Instructions
- Accepted intraoral scanners

Case Award

Against The Odds
by Dr. Kostas Spathoulas

The winning doctor said it was his "first ever Insignia case" and he didn't expect it works so well.

DISCOVER THE CASE

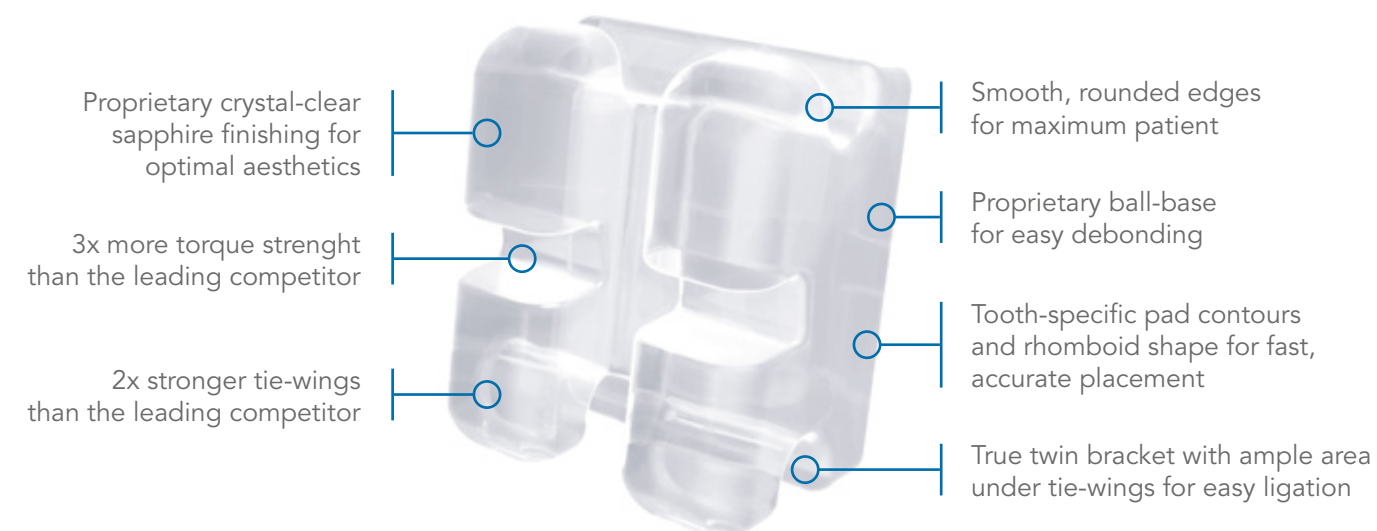

McLaughlin – Bennett & Trevisi Rx

"The crystal clear appearance of the product sells to the patient and the performance satisfies various mechanics while simplifying debonding."

Dr. Mark COREIL

New products

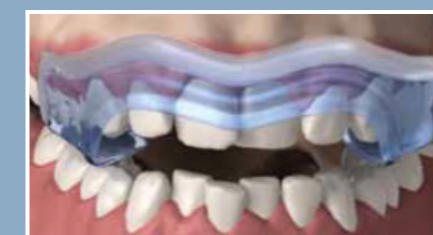

TONGUE TAMERS

Part nb: 762-7507 (10 each)

Used by Dr Frost. Allows to diminish the excessive activity of the muscles of the tongue.

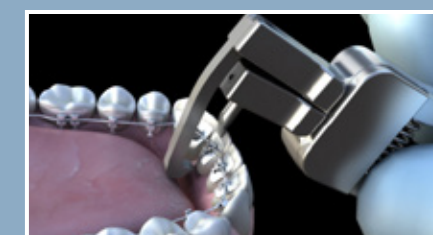

The anatomic base allows to place them on the lingual face without any problem (superior or/and inferior arcade). They are made of a strong stainless steel (17/4).

AQUALIZER

There are 3 different sizes with 3 different vertical heights (1, 2 or 3mm)

The aqualizer allows the muscles to reposition the jawbone to its optimal position and facilitate the pain relief.

NEW PLIER HU FRIEDY

Part nb: 762-8474

New plier Hu Fried for debonding lingual brackets.

This new plier is the result of a strong cooperation with Hu Friedy to design this new instrument.

Dr. Dimitrios Mavreas in Cape Town

Ormco South Africa proudly presented the Damon Level 2 course in Cape Town 26 – 27 September and Pretoria 29 – 30 September 2016 with Dr. Dimitrios Mavreas.

Between both locations, 45 doctors attended.

Dr. Gurkeerat Singh in Durban

Ormco South Africa proudly hosted a course in Durban on 19-20 May 2016 with Dr. Gurkeerat Singh.

The course covered topics on Diagnosis, Bracket Placement, Anchorage and Retention. The beautiful coastal city of Durban drew 54 attendees and the feedback on this course was exceptionally positive.

Dr. Morris Strauss in Cape Town & Durban

In May 2016 Ormco South Africa presented a one and a half day workshop with Dr. Morris Strauss in both Cape Town and in Durban.

The Cape Town leg was presented at The Crystal Towers Hotel on the 12 and 13 of May with an attendance 22 orthodontists and dentists, whilst the Durban event on the 17th and 18th of May at The Holiday Inn Garden Court, hosted 18 attendees.
